ENQUIRE NOW

PROTOCOL INFORMATION

Step 1	Microchipping (Speak to your vet)	All pets must have an ISO approved microchip implanted subcutaneously. Tattoos are not accepted. Please inform our consultant if your pet has more than 1 microchip.
Step 2	Vaccinations (Speak to your vet)	Rabies vaccination is compulsory and must be older than 6 months but not older than 12 months. Acceptable vaccines include Zoetis Defensor 3, Nobivac Rabies and Merial Rabisin. Dogs should be vaccinated against Distemper, Hepatitis, Leptospirosis, Parvovirus, Adenovirus and Coronavirus and parainfluenza. Cats should be vaccinated against Feline Panleukemia (Distemper), Viral Rhinotracheitis Calicivirus, Panleukopenia and Leukaemia older than 14 days but not older than 12 months. Pets arriving at or departing from Keringa Kennels require Nobivac Kennel Cough, Bronchicine or Pneumodog (dogs) and Nobivac BB intranasal (cats).

COUNT 31 DAYS FROM DATE OF RABIES VACCINATION (COMPULSORY WAITING PERIOD)

Step 3	RNATT (Speak to your vet)	On day 32 after Rabies vaccination have your pet's blood drawn for the Rabies Neutralising Antibody Titre Test (RNATT). Your family vet will submit bloodwork to an approved laboratory for analysis. Results must show a titre value of more than 0,5 IU/ml to qualify for travel. Blood to be submitted to Onderstepoort or IDEXX. Blood tests are only valid for 6 months.
--------	------------------------------	---

NO MINIMUM TIMEFRAME BETWEEN THE BLOOD TEST RESULTS RETURNING AND DEPARTURE

Step 4	Veterinary Health Certificate (VHC) (Speak to your vet)	Your pets require a Veterinary Health Certificate (VHC) completed by your family vet 2 – 7 days before departure. Our consulting vet can complete the VHC on your behalf by prior arrangement.
--------	---	---

PLEASE TURN OVER

		Dogs and cats must be treated for internal parasites (nematodes and cestodes) and external parasites (fleas and ticks) between 2 -7 days of export.
Step 5	Submission to Petwings (Speak to your vet)	<u>The following documents must be submitted to Petwings:</u> 1. Original, unaltered vaccination booklet for each pet 2. Original microchip certificate for each pet 3. One (1) original Veterinary Health Certificate (VHC) for each pet 4. Import Permit (Copy) 5. Original RNATT (Microchip ID must be noted on all the above documents) On the day of departure Petwings will submit these documents to the South African State Vet for certification and endorsement.
Step 6	Clearance at destination	It is advised that your pets arrive at their destination during the week and preferably during normal office hours. This will ensure timely clearance through Customs and the presiding State Vet while avoiding additional charges. Where applicable and unless stated otherwise, the consignee is responsible for import Permit, Import Customs, and Clearance at destination (we can advise you) Pets will be required to go into a minimum of ONE month of quarantine at the Sembawang Animal Quarantine Station.
Other important notes to consider		
Puppies and kittens may not travel to Singapore on their dam's vaccinations. They must have their first Rabies vaccination administered at 12 weeks of age (3 months) and then start the exporting procedure which means they can only travel from 4 months old.		
<ul style="list-style-type: none"> • For your pet's comfort during travel, we encourage you to include a favourite blanket, soft toy, or old T-shirt with your scent which we will place in their travel container. • Chemical and other strong sedatives are NOT ALLOWED. • Mild herbal remedies such as Rescue, CalmEze, catnip spray or other valerian root extracts are permitted. 		
Please inform your Petwings consultant of any brachycephalic (snub nose) pets travelling as certain airline, routing and seasonal restrictions may apply.		
Contact details for Sembawang Animal Quarantine Station: 10, Lorong Chencharu, Singapore 769197. TEL: (65) 6482 2724 / FAX: (65) 6482 2726		
<ul style="list-style-type: none"> • The following breeds of dogs and their crosses are not allowed to be imported into Singapore: Pit Bull (which includes the American Pit Bull Terrier also known as the American Pit Bull and Pit Bull Terrier), American Staffordshire Terrier, Staffordshire Bull Terrier, the American Bulldog, and crosses between them and with other breeds: Neapolitan Mastiff, Tosa, Akita, Dogo Argentino, Boerboel, Fila Brasileiro, Perro de Presa Canario and their crosses. • Bengal cat crosses imported into Singapore require documentary proof that they are at least a 5th generation cross from the ancestral stock of Prionailurus bengalensis. Fourth (4th) generation crosses and below cannot be imported to Singapore as pets as they are not considered domesticated cats. Savannah cat crosses imported into Singapore require documentary proof that they are at least a 5th generation cross from the ancestral stock of Leptailurus serval. 4th generation crosses and below cannot be imported to Singapore as pets as they are not considered domesticated cats. Cats are not allowed to be kept in Housing Development Board (HDB) residential units. 		
<p>If all of this sounds daunting, Petwings can do just about everything for you!</p> <p>We've been transporting pets world-wide for years – here's what some of our many happy clients have to say about us: https://keringa.co.za/references/</p>		
<p>NB: Due to the fact that airline and country protocols change often, we cannot be held responsible for errors, omissions, or alterations/changes. That said, Petwings pet travel agents keep up-to-date and are the best source of current rules and regulations – and they are friendly and helpful too!</p>
